

# Pre-course: JavaScript

## JavaScript – Ex6 – Validate integer

---

The following exercise contains the following subjects:

- ◆ JavaScript
- ◆ Loops

### Instructions

Write a program that reads an integer from the user and validates that it's larger than 10. If not, ask for it again.

Example:

**"please choose a number larger than 10"**

User answer : 9

**"please choose a number LARGER than 10"**

User answer : 8

**"please choose a number LARGER than 10"**

User answer : 11

**"thank you"**

Submit the file to Hive.
