JavaScript – Ex8 - BOOM

The following exercise contains the following subjects:

- ◆ JavaScript

Instructions

Write a program that prints all of the number between 0 and 100:

- For every number that is divisible by 7 or has the digit 7 print 'boom'.
- In every other case – print the number itself.

Example: 1,2,3,4,5,6, BOOM,8,9,10,11,12,13,BOOM,15,16,BOOM,18
